

EFFICIENT MANURE APPLICATION STARTS HERE!

3PT Dietrich 70 Series Toolbar

4WD Torsion Flex

4WD Swingarm

Increased width for increased flow

From smaller 3-point mounted units to our renowned 4WD drive-mounted arm and Pull-Type applicator, we have you covered with toolbars from 16'–55' wide.

PULL-TYPE TOOLBAR FEATURES

- ✓ Increased width for increased flow
- ✓ Wider applicator bar allows you to increase flow rates
- ✓ Increase flow rates to maintain similar ground speed, or decrease ground speed with the same flow rates
- ✓ 8" Puck swingarm
- ✓ 30" and 24" row spacings
- ✓ Widths from 35 to 55 feet
- ✓ Narrow and shorter transport height with front-fold applicators
- ✓ Easy to switch tractors from one applicator to another

SWING PIPE FEATURES

- ✓ Operates independently of the toolbar, providing stability throughout the applicator
- ✓ Less stress on the toolbar and tractor during turn-arounds
- ✓ Works with many toolbar types and widths
- ✓ No need to re-wire your meter when changing out tillage tools
