

POWERFUL DUAL-PURPOSE COMPACT PUMPING.

5780 Warthog

Seamless function as a lead or booster pump

Utilizing an engine with rear PTO, the versatile Warthog allows you to run high pressure hydraulics for lagoon feeders as lead pump.

WARTHOG FEATURES

- ✓ 3,000+ gallon per minute pump capacities
- ✓ Compact design
- ✓ LightSpeed™ ready
- ✓ Operates the Lagoon Feeder
- ✓ Works as a Booster Pump
- ✓ Allows for extra distance

BOOSTER FEATURES

- ✓ Quick Set Changes: pig the line from the bypass
- ✓ High flow, high efficiency pumps
- ✓ Finish with full bypass operation from LightSpeed
- ✓ More gallons pumped per gallon of diesel fuel consumed
- ✓ Increased safety, decreased time on tractors/pump units
