

ARMOUR GUARD®

Heavy Duty Industrial Discharge Hose

BullDog Armour Guard® is a lay-flat, flexible water discharge hose that brings impressive flow to any situation. It combines the lightweight, compact features of a unique nitrile PVC blend with enhanced durability and abrasion resistance as compared to conventional rubber hose. Armour Guard® features a heavy-duty, one-piece design with all-synthetic, extruded through-the-weave materials. This allows the hose to expand under pressure, decreasing friction loss and increases water flow. The ozone-resistant synthetic rubber liner and cover totally encase and protect the high-performance inner nylon reinforcement from the effects of abrasion, chemicals and heat. Armour Guard® cleans easily and offers ease of maintenance. The standard color is black.

UNIQUE DESIGN FEATURES:

- Ozone resistance
- Abrasion resistance
- Heat resistance
- Resists fuels, oil, and a wide range of chemicals

FEATURES:

Long Service Life

Nitrile-rubber cover eliminates additional weight issues caused by water pick up during use and greatly increases abrasion resistance, providing a long service life.

Easy to Store

Requires minimal storage space

Temperature Range -36°F to +120°F

Peak performance in a variety of environments, with optimum operating temperatures ranging from -36°F to +120°F

Anti-Burst Technology

Fully protected high tensile yarns for improved working pressure rating and drag resistance.

Durable Construction

A unique nitrile PVC blend with enhanced durability and abrasion resistance as compared to conventional rubber hose. Armour Guard features a heavy-duty, one-piece design with all-synthetic, extruded-through-the-weave materials.
