

BOOSTER PUMPS

Dual-Purpose Compact Pumping

Seamless function as a lead or booster pump. Utilizing an engine with a rear PTO, the versatile Warthog allows you to run high pressure hydraulics for lagoon feeders as a lead pump.

WARTHOG FEATURES:

- Up to 4,500+ GPM capacity based on pump configuration
- Compact design
- LightSpeed™ ready
- Flow meter standard
- Works as Booster Pump
- Allows for extra distance
- Electric over hydraulic (WH 5770)

BOOSTER FEATURES:

- Quick set changes: pig the line from the bypass
- High flow, high efficiency pumps
- Finish with full bypass operation from LightSpeed™
- More gallons pumped per gallons of diesel fuel consumed

BOOSTER PUMP	CAT ENGINE	PUMP
WH 7582 Tandem Axle	C18 (772 HP)	Cornell 81022MP w/hydro
