

REICKS VIEW FARMS TESTIMONIAL

Pork Producers Trust Puck

Reicks View Farms in Jerico, Iowa is a top quality pork producer making 468,000 tons of feed each year. Their Manure Operations Manager, Josh Geiselhart, has been pumping since '05.

When Josh heard about Puck and what they were building, he went to Manning to investigate. After seeing the first of the Puck pumps with 8" booms, Josh knew they had to have Puck equipment. "When we left there, we had a new lead pump, a new booster pump, two hose reels, a new AGI pump, and a whole new meaning of pumping manure."

With a full line of Puck equipment and minimal maintenance over the years, Josh remains impressed with the robust and original products from Puck.

"The booms have been one of the best things I've seen since I've started pumping — and still to this day!"

One of the first Puck AGI Cornells still in use today
